DETAILED ACTION

Claims 1-8 are pending in this application.

Status of Application

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on June 2, 2003 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Action Summary

3. The rejection of claims 1-8 under 35 U.S.C. 112, first paragraph is hereby withdrawn.
4. The rejection of claims 1-8 under 35 U.S.C. 102(b) under Fournier is being maintained for the reasons stated in the office action dated December 4, 2002.

Response to Arguments

5. Applicant's arguments filed June 2, 2003 have been fully considered but they are not persuasive.

Art Unit: 1616

Applicant argues that Fournier does not anticipate a substance delivery device including a plurality of finger means for allowing sustained release of substances over a period of time. It is also argued that Fournier is designed to be used as an application swab and to apply a single dose of medication. It is the position of the examiner that Fournier does teach the claimed invention. Figure 6, describe a vaginal applicator having outwardly extending annular ridges, column 5, lines 4 and 5 describe the use of therapeutic and non-therapeutic compositions may be added to the applicator. It is the position of the examiner that the broad use of the term therapeutic compositions encompasses all types of drugs. With respect to Fournier being used as single dose applicators, the instant claims do not mention that the applicator is either as single or multiple dosages. Therefore, Fournier teaches the claimed invention.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1616

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
